

SolarMax Energy Systems

Enclosed modular lithium battery pack

Overview

What is a modular battery system?

These battery systems are designed for rigorous use in commercial electric vehicles, large industrial electric vehicle applications and marine propulsion. Built for scalability, our modular battery packs can be connected in series or parallel.

Can Lithium Werks make a custom battery pack?

Lithium Werks' patented Nanophosphate® battery technology (designed by MIT and A123) can be used in your custom modules. We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or pouch cells can be produced for your pack.

What is a high-voltage lithium-ion battery pack?

An emission-free source of energy that you can feel good about, powering the future of clean energy and alternative solutions. Our high-voltage lithium-ion battery packs are designed for rigorous use in commercial electric vehicles and large industrial EV applications. Learn more today!.

What is a lithium-ion battery?

The Lithium-Ion batteries are modular and expandable and therefore can be adjusted for your application in industries like logistics, agriculture and others. Customers are provided with a ready-to-use battery solution, including all necessary accessories and certifications.

Can Lithium Werks provide a battery management system (BMS)?

Lithium Werks can provide modules and packs with BMS (Battery Management Systems) to monitor, control and communicate with your devices or configure the modules to accept off-the-shelf BMS products. Lithium Werks builds custom battery packs and modules using lithium iron phosphate LFP batteries.

What is included in a server rack battery kit?

This kit includes 6 server rack batteries, an enclosed rack with door and wheels, and robust Lithium Iron Phosphate (LiFePO₄) technology for reliable, long-lasting energy storage. Features 5.12kWh per battery, 100AH internal BMS, and advanced safety mechanisms. Ideal for high-capacity energy needs.

Enclosed modular lithium battery pack

Lithium Battery Pack Designer

About Our Battery Pack Designer Our battery pack designer tool is a web-based application that helps engineers and DIYers build custom DIY battery packs various electronic devices or ...
