

SolarMax Energy Systems

Energy Storage Dual-Phase Inverter

Overview

What is an energy storage inverter?

An Energy Storage Inverter is a specialized power inverter designed to manage the flow of electricity between a battery storage system, the grid, and connected loads. It plays a crucial role in converting, storing, and distributing energy efficiently in renewable energy systems.

What is a Solax energy storage inverter?

Designed for homes and businesses, it supports grid-tie, off-grid, and battery backup modes. The SolaX Energy Storage Inverter ensures seamless integration with EV chargers, heat pumps, microgrid systems, and Virtual Power Plant (VPP) applications. With easy installation and retrofit support, it provides a flexible and future-proof energy solution.

What is a parallelable 125kW energy storage inverter?

This parallelable 125kW energy storage inverter is transformer-less, air-cooled, compact, and optimized for behind the meter energy storage applications. Featuring a highly efficient three-level topology, the MPS-125 is easily integrated into customer supplied battery storage systems.

Can multiple mps-125 energy storage inverters be paralleled?

Multiple MPS-125 energy storage inverters can be paralleled together to scale to meet the needs of any behind-the-meter energy storage installation. With all the functional capabilities of the grid-scale CPS inverter family, the MPS-125 supports frequency, voltage, and VAR support applications.

How many inverters can be connected in parallel?

It allows: Up to 2 inverters to be connected in parallel without an EPS parallel box. Up to 10 inverters to be paralleled using an EPS parallel box, ensuring higher energy capacity and system scalability. SolaX hybrid energy storage inverter integrates with EV chargers, heat pumps, microgrids, and VPPs.

What is the 2025 Solar Builder energy storage system Buyer's Guide?

The 2025 Solar Builder Energy Storage System Buyer's Guide is here to cut through the noise. This ESS Buyer's Guide is a comprehensive list of what each brand is offering in the residential and C&I space heading into 2025. We sent a questionnaire to every manufacturer to ascertain their top product and what components are included.

Energy Storage Dual-Phase Inverter

5kW Single Phase Hybrid Inverter SUN-5K-SG05LP1-EU with Dual ...
