

SolarMax Energy Systems

Energy Storage Stack Control Products

Voltage range: 691.2-947.2V

>6000 cycles (100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

What is a technology stack?

Our standardized Technology Stack makes it easier for you to rapidly and cost effectively deploy energy storage, and optimize storage and renewable assets. Energy storage provides the agility and efficiency to keep pace with an evolving energy landscape. Unlock the full potential of your network with energy storage.

What is SIGEN stack?

Discover SigenStack's modular BESS solutions and energy storage systems, designed for scalable and efficient energy management in various commercial and industrial applications.

How can Honeywell help protect your energy storage systems?

Honeywell's advanced OT cybersecurity solutions can help protect your energy storage systems. Our comprehensive approach helps safeguard your operational technology from cyber threats, supporting the integrity, availability and confidentiality of your systems.

What is Dyness stack100?

To address these issues and optimize the user experience, Dyness has launched its latest C&I solution for small business owners: STACK100. This is a stackable C&I energy storage system designed for high-voltage and light business scenarios, excelling in safety, performance, installation and maintenance, and configuration. Ultimate Safety.

What is a stackable wiring system?

The stackable system structure eliminates complex wiring operations, making installation easier and more convenient, and the overall installation time is less than 40 minutes, which greatly saves engineers' energy and time.

Is the stack100 stackable?

The STACK100 is designed to be stackable, eliminating the need for additional brackets and making installation and expansion more flexible and easier.

Energy Storage Stack Control Products

Multi-Stack Controller

The Multi-Stack Controller (MSC) is a parallel stack management solution for Nuvation Energy Battery Management Systems. It aggregates control of all the battery stacks in your energy ...
