

SolarMax Energy Systems

Enterprise rooftop solar system

Overview

Commercial rooftop solar systems mount photovoltaic panels on commercial or industrial roofs, connecting multiple modules with inverters and mounting hardware to supply clean electricity for on-site operations and export any surplus to the grid. What are the benefits of industrial rooftop solar solutions?

Unleash Savings Potential: Industrial Rooftop Solar Solutions. Optimize power generation, cut costs through commercial applications.

What is a rooftop solar installation?

A rooftop solar installation is a type of distributed generation, which is seen in many parts of the country as a way for cities and homeowners to modernize their power system and become more resilient in the face of extreme weather, brought about in part by climate change.

What is Rooftop Solar?

Rooftop Solar is a NABCEP (solar) Certified, licensed, bonded, and insured company. At Rooftop Solar, solar isn't just a job, it's a passion. Your system will be installed by the best installers in the industry and backed with an exclusive 30-year warranty. Rooftop Solar is the one creating clean renewable energy for you every moment the sun hits your panels.

Why do companies use SolarEdge on their rooftops?

There's a reason why over 50% of Fortune 100 companies have SolarEdge on their rooftops. Ensuring peace of mind is no problem with advanced safety features, including: And with Sense Connect Technology built into our S-Series Power Optimizers, they can stop issues before they start: The Flexibility to Maximize Energy Production.

What is rooftop inverter capacity claim?

*#1 in Rooftop inverter capacity claim is based on aggregated residential and non-residential SolarEdge inverters estimated capacity published on Wood

Mackenzie US DG solar national competitive landscape leaderboard as of January 2025. The data provided by Wood Mackenzie should not be relied on for any purpose, copied, or used.
