

SolarMax Energy Systems

Estonian energy storage power station custom manufacturer

Overview

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Who sells electricity in Estonia?

In Estonia's electricity market, Eesti Energia is the largest seller with a 60% market share and owns the largest distribution network, representing 86% of the distribution market. The Estonian Competition Authority (ECA) regulates transmission and distribution rates, as well as connection charges. Electricity in 2020:.

Where are TSO Elering's emergency power plants located?

As previously reported by Energy-Storage.news, the two projects will be in Kiisa in the Saku Rural municipality and Arukylä in the Raasiku Rural municipality and will provide emergency reserve power. Kiisa is the location of an emergency power plant operated by TSO Elering.
