

SolarMax Energy Systems

Ethiopia solar power generation for home use

Overview

Implemented with the Development Bank of Ethiopia and international partners, the program focuses on solar home systems and mini-grids. It aims to improve rural communities' quality of life, support economic development, and enhance environmental sustainability.

Ethiopia solar power generation for home use

Solar energy can uplift rural Ethiopians, but is hard to come by

Even though solar home systems are becoming cheaper and easier to access, barriers to their adoption persist among remote communities in developing countries, where ...
