

SolarMax Energy Systems

French photovoltaic energy storage inverter

Overview

Which energy storage solutions are suitable for French customers?

Tailored to residential storage applications for French customers, SOFARSOLAR introduces another energy storage solution that features a HYD 6000-EP single-phase storage inverter and a GTX5000-PRO low-voltage battery storage system. Being quite versatile, HYD 6000-EP can serve as an off-grid inverter when the grid power is absent.

How many companies are involved in inverter production?

Companies involved in Inverter production, a key component of solar systems. 12 Inverter manufacturers are listed below. List of Inverter manufacturers. A complete list of component companies involved in Inverter production.

How many solar inverters are there in 2021?

As the world's fastest-growing solar energy brand, SOFARSOLAR compound annual growth rate reaches 86% and its annual production capacity reaches 10 GW for PV & storage inverters and 1GWh for batteries. By the end of 2021, SOFARSOLAR had shipped over 1 million inverters to more than 90 countries, entering the TOP5 Global Hybrid Inverter Suppliers.

What is the best C&I solar inverter?

SOFARSOLAR also presented its wide range of C&I PV solutions, starting from 15 kW to 110 kW. Its most recent flagship model, the 60-80 kW, is lightweight, quiet yet powerful. A perfect suit for power-consuming C&I solar applications. For utility-scale solar projects, the SOFAR 255KTL-HV PV inverter was introduced as the perfect fit.
