

SolarMax Energy Systems

Gambia Hybrid Energy Storage Power Station Project

Overview

The Jambur Solar Power Station (JSPS), is an operational 23 MW (31,000 hp) solar power plant in Gambia. The power station began commercial operations in March 2024. It is owned and was developed by the government of Gambia, with funding from the European Union, the European Investment Bank and.

The power station is located in the community called "Jambur", in , in the Brikama Local Government Area, southwest of Banjul, the capital city of the country and south of the .

The power station was developed by the Gambian Ministry of Petroleum and Energy and The National Water and Electricity Company (NAWEC), with funding from the EIB.

Jambur Solar Power Station, is a component of the "Gambia Electricity Restoration and Modernization Project" (GERMP), a US\$165 million infrastructure project financed by the (EIB), the .

The (EPC) contract was awarded to (TBEA), a Chinese engineering and construction company. TBEA was.
