

SolarMax Energy Systems

Gambia Telecom PV site 125kWh

Overview

How many PV systems will be installed in Gambia?

Gambia's Sustainable Energy Services Company is launching a tender to install 1,100 PV systems, ranging from 2 kW to 240 kW in size, on 1,000 schools and 99 health facilities.

What is the energy system in Gambia?

The Gambian electricity network mainly consists of minigrids that the government hopes to improve by transforming into hybrid minigrids, integrated with renewable energy generation capacity. With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013.

How much solar power does Gambia have in 2022?

According to the International Renewable Energy Agency (IRENA), Gambia only had 2 MW of installed PV capacity at the end of 2022. Gambian utility Nawec recently started building a 23 MW solar project in Jambur, in Gambia's West Coast Region.

What is the energy access rate in Gambia?

With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013. This content is protected by copyright and may not be reused.

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

Will the Gambia achieve universal access to electricity by 2025?

The Gambia aims to achieve Universal Access to electricity by 2025, as stipulated by H.E President Adama Barrow. NAWEC will implement this goal primarily through its grid infrastructure, benefiting from the country's favourable geography.

 **Efficient**
Higher Revenue

 **Intelligent**
Simple O&M

 **Flexible**
Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 1500W Peak Output Power
- 2 MPPT Trackers, 100% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules
- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
