Gambia outdoor power charging voltage

Overview

In Gambia, they use Type G power plugs and outlets. The voltage is 230V, and the frequency is 50Hz. So, you'll need a travel adapter in Gambia. Their plugs and outlets are different from the Type A and B ones we use back in the States. Need a travel adapter?

Yes, you do need a travel adapterWhat is the voltage in the Gambia?

The voltage in the Gambia is 230 volts and the frequency is 50 Hz. An ungrounded plug with plastic earth pin. Type G plugs and sockets started appearing in Britain in 1946 and the standard was first published in 1947.

Can I use power plugs in Gambia?

Select your country of residence, to check the compatibility of your power plugs in Gambia. In Gambia, power plugs and sockets (outlets) of type G are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

What type of power outlet does Gambia use?

Gambia uses power outlets and plugs of type G. Take a look at the picture below to see what this plug and power socket looks like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter.

Can you use a phone charger in Gambia?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Gambia outlet. Gambia uses electrical outlets and power plugs of type G (see images).

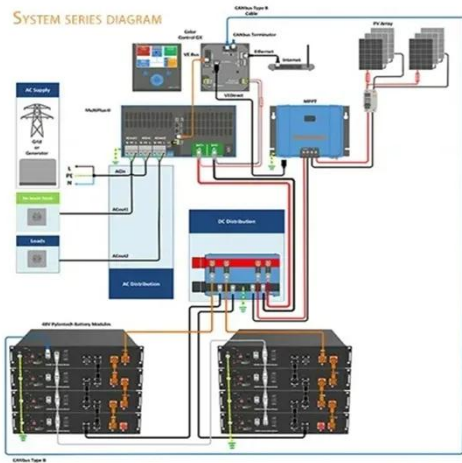

Can I connect my laptop charger to an electrical outlet in Gambia?

Yes, you can connect your laptop charger to an electrical outlet in Gambia as long as the outlet is compatible with the charger's voltage and plug type. In Gambia, the standard voltage is 230V and the standard frequency is 50Hz.

Do I need a voltage adapter in Gambia?

This is very good! You will not need any sort of voltage adapter (they are always big, heavy and they can't handle too much energy. i.e. might have problems with hairdryers). You can plug your devices to the electric network grid in Gambia without requiring a voltage adapter.
