Guinea-Bissau Thermal Power Plant Energy Storage Project

Overview

Guinea-Bissau has launched a solar energy project worth \$43.5 million to boost its electricity supply. The project includes installing a 20 MW solar power plant, a 1 MW battery storage system, and a 20 MW thermal power plant to increase electricity production and distribution in the country.

Guinea-Bissau Thermal Power Plant Energy Storage Project

Guinea-bissau energy storage power station

The other small hybrid solar power plant will be built in the Gabu region in eastern Guinea Bissau. The plant equipped with a battery storage system and back-up generators (diesel), will also be ...
