

## SolarMax Energy Systems

# Heishan Photovoltaic Energy Storage 5kw Inverter Brand

## Overview

---

What is a 5kw hybrid solar inverter?

The 5kW hybrid solar inverters, as the most basic type of storage inverter, are available on the market in a wide range of brands and products, which makes it difficult for people who are just about to buy a PV system to choose one.

What are the best hybrid solar inverters?

Standard 7: Weight Lighter hybrid inverters are more advantageous during the installation of a PV system, saving labor and installation time. In our comparison of the best 5kW hybrid solar inverters, the Deye is very light at 20kg, followed by the BSLBATT at 23.5kg, and in third place is the Solis at 24kg.

Which solar inverter is best?

The comparison shows that Deye's 5kW hybrid solar inverter comes out on top with a 120A charging and discharging current, which means that the SUN-5K-SG01/03LP1-EU can charge and discharge the stored battery power in the same amount of time and in a much faster manner. The 5kW inverters from Goodwe and Solis also performed well. Max.

## Heishan Photovoltaic Energy Storage 5kw Inverter Brand
