Home costs of solar systems in France

Overview

The costs of installing photovoltaic solar panels will vary by region and type of property. However, as a rule of thumb, the French energy management agency 'ADEME' considers the cost to be €3,000 to €4,500 per kilowatt of power created. How much does a solar installation cost in France?

Shadows can significantly reduce the energy output of your solar panels. The price of a solar installation depends on several factors such as power (expressed in kilowatt-peak, or kwc), the technology chosen and installation costs. On average in France, count between 2500 and 4000 euros excluding tax per kwc for a residential installation.

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is €540 per household per year.

Can you sell solar panels in France?

In France, it is possible to sell the electricity produced by your solar panels to EDF or another energy supplier. The feed-in price depends on the power of your installation and the conditions of the contract. The average lifespan of solar panels is around 25 years.

Are there grants for solar panels in France?

There are also grants available for energy conservation (but not photovoltaic solar panels) as part of the home improvement grant regime 'MaPrimeRénov' run by Anah, the housing renewal agency, but these are means-tested. How much does it Cost to install Solar Panels in France?

.

Should you install solar panels on your French property?

The installation of solar panels on your French property is a tempting proposition for many owners, but the rewards are long-term, and it is not without risk. Thermal or Photovoltaic Solar Panels?

At the outset it is important to define the term 'solar panel' as there are two types of panels, which are frequently confused with one another.

Are there tax credits for solar panels in France?

Since 1st January 2014 there are no longer any tax credits available for the installation of photovoltaic solar panels Nevertheless, in France, as in many other countries, there are incentives in place for property owners to sell electricity back into the grid at preferential prices.
