# How many energy storage power stations are there in Ireland

## Overview

---

How much energy storage does Ireland have?

Image: ESB. ESB Networks has announced that Ireland's electricity grid now has 1GW of energy storage available from different energy storage assets. This figure includes 731.5MW of battery energy storage system (BESS) projects and 292MW from Turlough Hill pumped storage power station – which is celebrating its 50th anniversary this year.

How many fossil-fuel based power plants are there in Ireland?

The table below gives a detailed overview of the fossil-fuel based power plants operating in Ireland in 2017. The data is publicly available and updated annually by the Irish Transmission System Operator (TSO), EirGrid, in its Generation Adequacy Report. In total there was 6609 MW of power plants available in 2017.

How many power plants are there in Ireland?

□ Stats □ Ireland □ Power Plants All 282 power plants in Ireland Name Operator Output Source Method Wikidata Aghada Power Station ESB Generation and Wholesale Markets 963 MW gas;oil combustion Q11957021 Moneypoint Power Station ESB Generation and Wholesale Markets 915 MW coal combustion Q6899351 Huntstown Power Station.

How many power stations are there in Ireland?

There are 48 Power stations in Ireland as of August, 2025. The highest number of Power stations of Ireland are in Co. Cork and Co. Clare with 4 businesses and 3 businesses, respectively. Co. Cork makes up approximately 8.3% of all Power stations in the Ireland.

Will Ireland's energy supply go to data centres?

Chief executive of environmental group Friends of the Earth Ireland claimed last year that the Republic is hurtling towards a future where 30% of the

country's energy supply will go to data centres. However, significant strides have been made to grow Bess systems to cope with demand.

How many MW of electricity does Ireland have?

This project has a capability of providing 75MW of energy for two hours to Ireland's electricity system. ESB Networks also recently announced that Ireland's electricity grid now has 1 gigawatt (GW), or 1,000 MW, of electricity storage connected to Ireland's network.
