# How many manufacturers are there of power base stations in Bulgaria

#### **Overview**

What is the electricity sector in Bulgaria?

The electricity sector in Bulgaria is an important part of energy in Bulgaria and is highly diversified. As of 2021 nuclear power accounts for 34.7% of Bulgaria's power, coal power provides 39.4%, while renewable energy provides 15.8% of the country's electricity needs.

How much electricity does Bulgaria use a year?

As of 2021 nuclear power accounts for 34.7% of Bulgaria's power, coal power provides 39.4%, while renewable energy provides 15.8% of the country's electricity needs. Bulgaria consumes about 35 TWh of electricity per year, and some is exported. The residential sector is the largest consumer, followed by industry then services.

How many renewable power plants will Bulgaria have in 2024?

Bulgaria will add over 2,500 MW of installed renewable power capacity by the end of 2024 through the installation of 700 MW of wind farms, 1,600 MW of solar parks, and 219 MW of biomass-fired power plants. In Bulgaria, the National Electric Company (NEK) owns 15 conventional hydro and pumped-storage plants.

When was the first nuclear power plant built in Bulgaria?

Bulgaria's first nuclear power plant was launched in Kozloduy (KNPP) in 1974. Over the years, six units were completed, making KNPP one of the largest nuclear power plants in the region, with the installed capacity of units 5 & 6 of 2,000 MW. In the 1980s, a new nuclear plant at Belene was approved for construction.

What is the main energy source in Bulgaria?

The main local energy source in Bulgaria is lignite coal. Another local energy source is nuclear energy, which significantly contributes to energy

independence. In 2022, the share of nuclear energy production is 32.6% of total electricity production in Bulgaria. The share is expected to remain above 40% until 2030.

Why is the energy sector important in Bulgaria?

Bulgaria's power sector is diverse and well developed, with universal access to the grid and numerous cross-border connections in neighboring countries. A key driver of the Bulgarian economy, the energy sector is strongly affected by geopolitical, economic, and regulatory pressures.
