What temperature will my outdoor Battery Cabinet maintain?

Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F. Take a look at our 3rd party test data [here](#) to view it yourself. HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels.

What is a usable capacity battery?

Usable capacity is the amount of usable energy that can realistically be drawn from your battery bank. This can be far less than the combined Amp Hour (Ah) rating of your battery bank especially if you have flooded lead acid or AGM batteries. Batteries may also degrade over time causing their usable capacity to drop.

What is a hindlepower Battery Cabinet?
