How much does it cost to install photovoltaic panels on Indonesian roofs

Overview

A 1 kWp installation could cost up to Rp14-24 million. In addition to the size of the desired capacity, the price is also determined by various factors, such as the complexity of the installation, the structural reinforcement needed, and others. How much does it cost to install solar panels?

The cost of installing solar panels depends on the capacity of the electricity generated. A 1 kWp installation could cost up to Rp14-24 million. In addition to the size of the desired capacity, the price is also determined by various factors, such as the complexity of the installation, the structural reinforcement needed, and others.

How many solar rooftop projects are there in Indonesia?

They currently operate more than 50 solar rooftop projects throughout Indonesia in various companies, such as Kimberly-Clark Softex Indonesia, Plaza Indonesia, Platinum Ceramics, Monde Biscuit, LTC Glodok and others. This article was first published on 29 April 2022 and last updated on 13 May 2022 to include additional details.

How much does a 1 kilowatt solar panel cost?

The basic price for a 1-kilowatt peak (kWp) of solar panels is around Rp. 14 million. The total cost will depend on how big the solar panels are to be installed. For example, if a house or shop installs 10 kWp of solar panels, you need to multiply it by the base price per kWh, and the result is IDR 140 million.

What size Solar System do you need for a villa in Bali?

A 12.8 kW system is a pretty big system and may not be needed for a standard 2-3 bedroom villa in Bali. Villas around this size might find a 3-7 kW solar system sufficient. Here is another example from a medium-sized 3 bedroom villa in Umalas, South Bali.

Who is PT ATW solar Indonesia?

PT ATW Solar Indonesia (ATW Solar) is an independent Engineering Procurement Construction (EPC) company specialising in solar photovoltaic complete system integration and energy storage solutions. One of the fastest growing companies in Indonesia, they currently have a portfolio of over 30 MWp solar projects, only 4 years into operation.

How much does a 1 kWp electricity installation cost?

A 1 kWp installation could cost up to Rp14-24 million. In addition to the size of the desired capacity, the price is also determined by various factors, such as the complexity of the installation, the structural reinforcement needed, and others. In the long run, the investments you make will save you a lot on your monthly electricity costs.
