How much is the electricity price of the Ethiopian power station

Overview

The residential electricity price in Ethiopia is ETB 0.658 per kWh or USD 0.005. The electricity price for businesses is ETB 1.611 kWh or USD 0.011. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. What is the electricity price in Ethiopia?

The residential electricity price in Ethiopia is ETB 0.658 per kWh or USD 0.005. The electricity price for businesses is ETB 1.611 kWh or USD 0.012. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Ethiopia with 150 other countries.

How much electricity does Ethiopia use a year?

Households that use less than 50 kilowatt hours (kWh) at 0.27 birr will see their tariffs climb to 1.56 birr as the four-year program is completed by 2027/28. Per capita electricity consumption is 140 kWh per year in Ethiopia, which is only 5 percent of the global average of 33,131 kWh.

How much does hydropower cost in Ethiopia?

The costs to explore hydropower potential are relatively low. In fact, hydro installation in Ethiopia costs about US\$1,200 per installed kW, or about half the cost of most other plants being built in eastern Africa. Thus, unit generation costs of planned hydropower plants are calculated to be below USD 0.05 per kWh.

How will Ethiopian power tariffs change over the next 4 years?

The Ethiopian Electric Utility has announced a rolling increase in power tariffs over the next four years as part of a comprehensive power sector reform. Quarterly increments averaging 10% will be progressively applied, with the first round slated for next month.

How is electricity produced in Ethiopia?

Based on the United States Energy Information Administration data from 2022, electricity in Ethiopia is produced from the following sources: fossil fuels 0.06%, wind 3.83%, solar 0.26%, hydro 95.84%, nuclear 0.00%, and geothermal 0.00%. You can also compare the energy mix of Ethiopia to other countries.

How many Ethiopians have access to electricity?

While EEU has indicated plans to provide electricity access to nearly 7.8 million households by the end of 2030, only around half of Ethiopians currently have access to electricity. Concerns about mounting inflation rates, which have worsened following the floating of the Ethiopian birr, are likely not allayed by the tariff announcements.
