# How much is the subsidy for East Asian energy storage projects

## Overview

---

How much do China's end-use energy subsidies cost?

Table 3 indicates that in 2007, China's end-use energy subsidies amount to CNY 356.73 billion — roughly equivalent to 1.43% of GDP. IEA (2008) had estimated that China's energy consumption subsidies were about CNY 300 billion in 2007.

What is a mw subsidy & how does it work?

The subsidy, which covers between one and two thirds of equipment and construction costs depending on technology, was open for applications between the end of August and the end of October 2024. Projects 1MW and larger spanning up to three fiscal years were eligible.

Which companies have been awarded energy projects in 2025?

Four companies including Q.ENEST Holdings, Banpu Japan, Mitsui Energy, and Kurihara were awarded two projects. Additionally, Toyota Tsusho group was awarded two projects, with Eurus Energy Holdings and Terras Energy, which are expected to be merged in April 2025, each having been awarded one.
