

SolarMax Energy Systems

Huawei Estonia Smart Photovoltaic Panel

LiFePO₄

Wide temp: -20°C to 55°C

Easy to expand

Floor mount&wall mount

Intelligent BMS

Cycle Life:≥6000

Warranty :10 years

Overview

What is Huawei's smart photovoltaic power plant management system?

*All the data are obtained by testing in Huawei's photovoltaic laboratory, and the actual situation may vary due to various reasons. The smart photovoltaic power plant management system developed by Huawei comes with refined management, efficient operation and maintenance, an open ecosystem, and self-developed safety features.

What is Huawei fusion Solar Smart Module Controller?

The Huawei FusionSolar Smart Module Controller is a power optimiser designed to enhance the performance and safety of residential solar energy systems. By allowing each solar panel to operate independently, it ensures that issues such as partial shading or differing orientations do not adversely affect the overall system's efficiency.

What is a smart photovoltaic power plant management system?

The smart photovoltaic power plant management system developed by Huawei comes with refined management, efficient operation and maintenance, an open ecosystem, and self-developed safety features. It empowers smart photovoltaic power plants with higher safety and reliability.

What is Huawei Smart Module Controller?

The Huawei Smart Module Controller brings you a reassuringly ultimate safeguard. In any emergency, the inverter will be switched off instantly, or for any power outage, the rapid shutdown (RSD) of the module voltage will be activated to clear potential risks on a high-voltage rooftop for personnel and firefighting safety. High Maintenance?

Huawei Estonia Smart Photovoltaic Panel

Why is Pikkori PV Park so Innovative?

The heart of this ground-breaking BESS system is a cutting-edge 2 MWh Huawei battery, integrated with the PV plant, designed to harness the power of the sun in a whole new way.
