

SolarMax Energy Systems

Huawei Solar Site Setup

Overview

What should I consider before installing a solar power system?

The first key consideration before installing a solar power system is evaluating your energy needs. An accurate assessment of your home or office's energy consumption helps to choose the correct solar system size. Analyzing your utility bill over the past 12 months can give you an estimate of your annual power consumption.

How do I create a fusion Solar Installer account?

Register an Installer Account (Optional, for Installers Without an Account)
Register the first installer account and create a company account. To create multiple installer accounts for the same company, log in to the FusionSolarapp and tap New User. 3. Log in and Start Setup Wizard.

How do I add a smart dongle to a PV plant?

On the Add Devices tab page, set the connected devices for the PV plant. Manually enter the SN of the Smart Dongle and click the blank area of Device type. The system automatically displays the device name and model. The affiliated inverters and power meter are automatically added.
