

SolarMax Energy Systems

Huijue Romania in energy storage projects

Overview

What is Huijue's home energy storage solution?

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution.

How many GW of energy storage will Romania have?

Romania is aiming to have at least 2.5 GW of energy storage installed by the end of next year and to exceed 5 GW only a year later. From ESS News According to Romanian Minister of Energy Sebastian Burduja, the country's energy storage fleet is expected to grow exponentially over the next couple of years.

What is Romania's most important energy project?

Earlier this month, Burduja reported progress on what he terms as "the most important project for the Romanian energy system" – the 1 GW Tarnița-Lăpuștești pumped storage hydropower plant. Romania resumed the development of the project last year, upping the planned capacity from 500 MW to 1 GW.

What is a Huijue system?

Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution. Compact and reliable Huijue systems provide energy independence and efficiency for modern homes.

What is Huijue off-grid solution?

Huijue Off-Grid Solution integrates photovoltaic, energy storage, and off-grid

systems for scalable energy self-sufficiency. The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

How will Romania grow its energy storage fleet?

Romania aims to exponentially grow its energy storage fleet over the next couple of years, as it works on its plan to deliver 36% of the nation's energy to come from renewables by 2030, with 8.3 GW of solar and 7.6 GW of wind, and phase out coal by 2032.

Huijue Romania in energy storage projects

Romania aims to roll out 5 GW of energy storage by end 2026

Romania is aiming to have at least 2.5 GW of energy storage installed by the end of next year and to exceed 5 GW only a year later.
