

SolarMax Energy Systems

Hybrid power supply for UK communication base stations

Overview

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy management for communication, a battery pack and an outdoor incubator for the battery.

Hybrid power supply for UK communication base stations

Energy storage system of communication base station

Base station energy cabinet: floor-standing, used in communication base stations, smart cities, smart transportation, power systems, edge sites and other scenarios to provide stable power ...
