India s Household Energy Storage Policy

Overview

Does India have an energy storage obligation?

Image: Alok Sharma via Twitter. India's government has added an Energy Storage Obligation alongside its Renewable Purchase Obligation for the first time. Meanwhile, a government thinktank has predicted around 180GWh of demand for batteries for stationary energy storage systems (ESS) by 2030.

How can Indian policymakers broaden the role of energy storage?

If Indian policymakers want to broaden the role of energy storage in the power system, an important first step is to include energy storage in national energy policies and programs.

How to meet India's energy storage requirement?

India's energy storage requirement, which is projected to be 60.6 GW/341.2 GWh by 2030², can either be met by Battery Energy Storage Systems (BESS) or Pumped Storage Projects (PSP). In the FY 2024-25 union budget speech, the finance minister signalled that an energy storage policy would be issued to promote the construction of PSPs in the country³.

Who handles energy storage in India?

The Ministry of Power and the Ministry of New and Renewable Energy are the key ministries handling energy storage. NITI Aayog is the premier policy 'Think Tank' of the Government of India, providing directional and policy inputs.

What is energy storage system (ESS) roadmap for India?

Roadmap is presented below: As an outcome of this detailed study we have prepared an Energy Storage System (ESS) Roadmap for India for the period 2019-2032 that will help policy makers and utilities in decision making related to investments in energy storage for integration of renewable energy leading to a reliable.

Can energy storage technology help India's energy transition?

Energy storage technologies, with their ability to provide grid management services, could play a critical role in India's energy transition. The government is also encouraging the growth of this sector through various policies and interventions. Energy storage systems framework a boost for power sector
