Inverter 12v clamp battery

Overview

How does a car battery inverter work?

It's one of the most versatile inverters on the market today, plugging directly into your vehicle's battery to deliver full power to multiple devices through its (3) USB ports and (2) 120-volt AC outlets. With the LCD screen, you can keep a close eye on your battery's real-time status, including power consumption, battery levels, and faulty issues.

How many watts can a cigarette lighter inverter output?

Because the circuit limitation of most vehicle cigarette lighter socket fuse is LESS than 10A, if the max input DC voltage reaches 15V, then the max AC output from inverter is around 150W. ($P=U*I$) If you need more power output, please connect the inverter to vehicle battery with the 2 clamps Directly.

What is bestek power inverter outshell made of?

BESTEK power inverter outshell is made of Aluminium alloy, solid and durable, can stand up to all kinds of bad environment, protect the internal components.
