

## SolarMax Energy Systems

# Irish energy storage container brand

## Overview

---

What is energy storage Ireland?

Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland. Delivering the energy storage technologies to enable a secure, carbon free electricity system on the island of Ireland by 2035.

How many energy storage projects are there in Ireland?

According to research by Energy-Storage.news' publisher Solar Media in April 2020, the Republic of Ireland already had a pipeline of energy storage projects of 2.1GW, with an additional 330MW of projects located in Northern Ireland.

How much battery storage does Ireland have?

There is 1.5 gigawatts (GW) of battery storage in planning and subject to grid connection on the island of Ireland – a gigawatt delivers enough energy to power 500,000 homes. “It’s a good number for Ireland, relative to market size,” he says, and an indication of its status among EU leaders.

Who owns ESB energy storage in Ireland?

A 75MW/150MWh BESS project in Poolbeg, in the Republic of Ireland’s capital Dublin. It was inaugurated earlier this year and is owned by ESB Network’s parent group ESB. Image: ESB. The energy storage market in Ireland continues to show strong growth potential.

Could new energy storage solutions be the future of Ireland?

Significant research and development is ongoing across the world on the development of new energy storage solutions and they could prove an ideal solution for the all-island Irish market, improving energy sustainability and security, while also facilitating achievement of long-term decarbonisation goals.

Does Fluence deliver energy storage for the Irish electric grid?

“Fluence has extensive experience delivering energy storage for the Irish electric grid, from the country’s first battery energy storage project to the fastest system response time in the world,” said Paul McCusker, vice president of EMEA for Fluence.
