

SolarMax Energy Systems

Irish energy storage emergency power supply manufacturer

Overview

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Where is Energia supplying electricity in Ireland?

The first such plant, at North Wall in Dublin, is already supplying electricity. Other emergency generators in counties Offaly and Kerry will follow Huntstown on to the grid this year. Payments for building the plant boosted profits at Energia subsidiary, Huntstown Power Company Ltd, last year, according to new accounts.

Will a new battery plant support Irish grid stability?

In a bid to support Irish grid stability, Electricity Supply Board (ESB) has opened a major battery plant at its Poolbeg site in Dublin, which will add 75MW/150MWh of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Will there be a second emergency power plant in Ireland?

A second emergency power plant needed to plug gaps in Irish electricity supplies will be ready within coming weeks, it has emerged. The Government contracted independent energy group Energia to build a temporary electricity generator at its base in Huntstown, Co Dublin, late in 2022.

Is Poolbeg the EU's largest battery energy storage system?

The 75MW/150MWh battery in Poolbeg is to be the EU's largest battery energy storage system (BESS) project by energy capacity, the companies said. A second 30MW/60MWh asset is also to be developed at South Wall, with both batteries to be developed at existing ESB plants.
