

SolarMax Energy Systems

Italian Outdoor Battery Cabinet BMS Module

✓ IP65/IP55 OUTDOOR CABINET

✓ OUTDOOR MODULE CABINET

✓ OUTDOOR ENERGY STORAGE
CABINET

✓ 19 INCH

Overview

What is a 3 level battery management system (BMS)?

Our 3-level battery management system (BMS) guarantees safe operation by continuously monitoring all critical parameters at three distinct levels: the cell level, battery module level, and battery cabinet level. Additionally, the HISbatt 215-A features an independent aerosol-based active fire suppression system.

What is a self-designed battery management system (BMS)?

Self-designed Battery Management System (BMS) protects the cell from extreme temperatures. Modular, sleek design allows neat stacking inside the AZE company solar equipment enclosures. Compatible with most of there hybrid inverters available on the market.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

How many battery cells are in a battery cabinet?

Each battery cabinet is with 240 battery cells in series with contactor, detective unit, sampling line, battery management systems, fuse, etc. BESS employs a sophisticated, multilevel battery management system (BMS) for system monitoring and control. Each battery management system including:.

What is a module BMS (BMU)?

At the lower level is the Module BMS (BMU), which is designed to detect voltage, temperature, and execute cell balance functions for cells. The rack BMS (BCU) can manage all module BMS units and detects total voltage, current, and executes protection functions by switching DC-contactor as well as interact with PCS by RS485 to perform power limits.

Italian Outdoor Battery Cabinet BMS Module

Rack cabinet for up to 12 Pylontech lithium battery modules BMS

The ZCS Azzurro Rack cabinet is equipped with 12 slots for Pylontech H48050 2.4kWh battery modules and provided with a support shelf for 1 BMS.
