Kazakhstan Communications Green Base Station Project

Overview

What did the Kazakh Telecom chair say about the project?

The Kazakhtelecom Chair also informed about the progress of constructing the Trans-Caspian fiber-optic communication line along the Caspian Sea bed between Kazakhstan and Azerbaijan. This project will increase international traffic transit through Kazakhstan, turning the country into the most important regional telecommunications hub.

What is Giga City – accelerating the digitalization of Kazakhstan?

This milestone was celebrated with an official launch event in Astana, titled “Giga City: Accelerating the digitalization of Kazakhstan”. The project encompassed the modernization of the Beeline’s mobile network in the Akmola region (including Astana) and the Turkestan region (including Shymkent), involving more than 1,800 base stations.

How many 5G base stations will be installed in Astana?

According to the terms of the auction, the consortium is obliged to install 391 5G base stations in Astana, Almaty and Shymkent during the first year. And in the next four years — 784 base stations per year in regional centres and cities of republican significance.

Why is Kazakhstan an important market for ZTE Corporation?

“Kazakhstan is an important market for ZTE Corporation,” said Mr. Xu Ziyang, Chief Executive Officer of ZTE Corporation. “The Giga City project, implemented in collaboration with Beeline in the Akmola and Turkestan regions, demonstrated our capability to effectively solve complex technical problems on a live network.

Who will develop 5G networks in Kazakhstan?

The winners of the auction for radio frequencies, the consortium "Mobile Telecom Service" and "Kcell", will develop 5G networks in Kazakhstan. The

main shareholder of the winning companies is the national operator Kazakhtelecom.

Why is Beeline a leader in digital transformation in Kazakhstan?

“As an important participant in the digital transformation in Kazakhstan, Beeline has always been at the forefront of introducing innovative products and solutions to improve connectivity and empower people in the digital world. Rapid growth in data traffic consumption continues in Kazakhstan.
