Kosovo communication base station power supply location

Overview

Hydroelectric power generation is mainly provided by Ujmani power station with a capacity of 70 MW. In the past, Kosovo has had four functional hydroelectric power plants. After the 1999 war they stopped working, but they have been rehabilitated in the recent years. Overview The electricity sector of Kosovo relies on coal-fired power plants (92% as of 2023) and is considered one of the sectors with the greatest potential of development. The inherited issues after the war in Kosovo and the transitio.

The main institutions responsible for the energy sector management in Kosovo are: Ministry of Economic Development (MZHE) and (ERO). Important responsibilities are also held by the.
