# Lesotho 5G base station cost price

## Overview

---

How much does a 5G base station cost?

[Click Here To Download It For Free!](#) Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

How much does SA 5G cost?

However, transitioning from non-standalone (NSA) 5G to SA 5G comes with a hefty price tag—between \$1 billion and \$3 billion per operator. Unlike NSA 5G, which relies on existing 4G infrastructure, SA 5G requires a brand-new core network. This includes cloud-based architecture, advanced data centers, and software-defined networking.

How much does a 5G small cell cost?

The 5G small cell cost ranges from \$10,000 to \$50,000 per site. Small cells are a crucial part of 5G networks, especially in cities where high data demand exists. Each small cell costs between \$10,000 and \$50,000 to deploy, depending on location and infrastructure requirements.

How much does a base station cost?

The cost of base stations and antennas can range from \$50,000 to \$200,000 based on coverage needs. The number of units required will depend on the area size and the density of users. Installation costs for these components can add an additional \$20,000 to \$100,000. The network core is vital for managing data traffic and connections.

How much does a 5G network cost?

Here's a look at the main costs involved: The core network is the backbone of your private 5G setup. Investing in core network equipment can cost around \$300,000 initially, with annual licensing fees that may reach \$100,000.

However, as the market grows, these costs are expected to decrease, making it more affordable for enterprises.

How much does a 5G non-standalone Evolved Packet Core cost?

Have you ever wondered how much a 5G non-standalone Evolved Packet Core for up to 50,000 subscribers costs, including the installation and everything?

Sure you have. It will run you anywhere from \$250,000 to \$1.2 million, depending on the vendor. Or what about the software license fee, per subscriber, for a 4G Internet of Things system?
