Liquid Cooling Energy Storage Cabinet Huijue Energy Storage

Overview

Who is Huijue group?

We are a professional Manufacturer in China, and we are constantly innovating so that our customers can have better products and services. Founded in 2002, Huijue Group is a high-tech service provider integrating the integration and application of intelligent network equipment and intelligent energy storage equipment.

What is Huijue group's new generation of smart energy solutions?

Huijue Group's new generation of smart energy solutions integrate green energy systems, advanced intelligent control systems and services to achieve energy saving at the sites, reduce energy consumption, and reduce carbon emissions.

Who is Huijue network?

Founded in 2002, Huijue Group is a high-tech service provider integrating the integration and application of intelligent network equipment and intelligent energy storage equipment. Huijue Network products are exported to Europe, North America, Southeast Asia and other countries and regions, contact us now!.

Where are Huijue network products exported?

Huijue Network's products are exported to Europe, North America, Southeast Asia and other countries and regions. Since our founding in 2002, we've been committed to becoming a leader in the network link industry.

Liquid Cooling Energy Storage Cabinet Huijue Energy Storage

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree, support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
