Lithium battery packs can be exported

Overview

How to prepare a lithium battery export document?

When preparing documents, follow the following steps: Confirm export requirements: Need to confirm the import requirements and standards for lithium batteries of the export country and region, including requirements for product quality, labels, packaging, etc.

Do lithium batteries need a customs declaration?

As a special kind of cargo, lithium batteries need to follow strict regulations and requirements during the export process to ensure that they are safely and compliantly transported to the destination. When conducting customs declaration for lithium battery exports, it is crucial to prepare complete and compliant documents.

Do countries impose export restrictions on lithium?

To give domestic companies a competitive edge, nations often impose export restrictions on raw materials such as lithium, cobalt, and nickel. This is particularly true with a few of the world's biggest lithium-producing nations, such as China, certain countries in Africa, and Chile.

Are lithium batteries safe to ship?

Improperly packaged lithium batteries can ignite, causing fires that are difficult to extinguish and pose a significant risk to the safety of transportation workers and the general public. Other battery types, such as alkaline or nickel-metal hydride (NiMH), are generally considered safer to ship.

Can I ship a lithium ion battery by air?

For this reason, any battery that is suspected or known to be defective (swelling, corroding or leaking, for example) is not permitted for shipping within the DHL Express network. When you're shipping lithium-ion batteries by air, it's essential to follow specific regulations regarding their state of charge

(SoC).

Are wet batteries safe to ship internationally?

Like lithium batteries, there are strict regulations to follow when shipping wet batteries internationally. An IATA Dangerous Goods label must be attached, along with the correct UN number and shipping name for the particular type of batteries.

Lithium battery packs can be exported

Export packaging requirements for lithium batteries

Lithium batteries or lithium battery packs that comply with Article 188 use the "rectangular mark". Other lithium batteries or lithium battery packs use the "diamond mark" of ...
