How will Lithuania support energy storage projects?

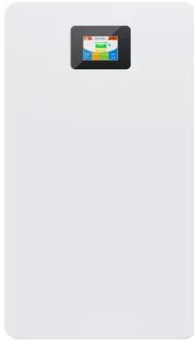

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU. The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects.

How much does electricity cost in Lithuania?

In June 2024, the average wholesale electricity price in Lithuania increased to approximately 91.6 euros per megawatt-hour. Between January 2021 and August 2022, electricity prices in the Baltic country grew roughly nine-fold due to the global energy crisis, surpassing 480 euros per megawatt-hour in the latter month.
