

## SolarMax Energy Systems

# Lithuanian small solar power system market

### RS485

Communication between battery and inverters  
Baud rate:9600bps

### RS485 Interface

Communication between parallel packs or BMS and PC  
Baud rate:9600bps

## Overview

---

At present, a 0.8 kW solar power system in Lithuania costs around €500, with state compensation covering approximately €200. Annual electricity savings of between €100 and €140 are possible, meaning the system typically pays for itself within two to three years.
