Major hydropower energy storage project in Cameroon

20 ft container

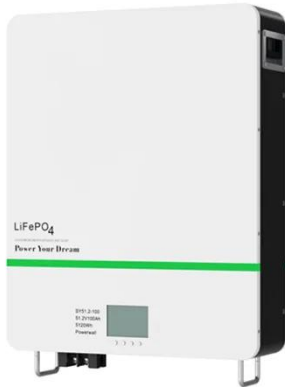

40 ft container

Overview

Cameroon signed its first major hydropower PPP in 2018 for the 420 MW Nachtigal hydropower dam. Construction is ongoing and expected to be completed by the end of 2025, making it currently the largest ongoing public-private partnership project in Sub-Saharan Africa's energy sector.

Major hydropower energy storage project in Cameroon

Cameroon energy storage hydraulic station system

Are hydropower projects a good idea in Cameroon? Small-hydropower and pumped-storage are showing good prospects for electrifying many remote areas in Cameroon. A few hydropower ...
