Maldives photovoltaic transparent solar panels

Overview

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

How much does a solar project cost in Maldives?

In 2022, 63 investor expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

What are transparent solar panels?

Transparent solar panels are an advanced technology that allows for the production of solar energy on transparent surfaces, such as windows and roofs, without compromising the view through them. These panels are designed to be discreet, making them Ideal for integration into urban buildings, where aesthetics and the use of space are crucial.

How will the Maldives' fuel subsidy project impact the economy?

This will reduce the Maldives' import bill by approximately US\$ 30 million annually, with a total project lifetime saving of US\$ 750 million over 25 years. These projects are expected to significantly reduce the government's fuel subsidy expenditure, thereby decreasing the nation's reliance on fossil fuels and the fiscal burden this creates.
