Overview

What materials should be used for the PV system in Marshall Islands?

The materials for the PV system that are not available in Marshall Islands should be imported from overseas. The main procurement materials in this project are the PV modules, the reinforcement concrete masonry timbers. Implementation conditions: Notice matters in the

Who is responsible for environmental impact assessment in Marshall Islands?

The Environmental Protection Agency (EPA) is the construction supervisory authority of the environmental impact assessment in Marshall Islands. Even though it is unnecessary to conduct an environmental impact assessment analysis for this project, it will be necessary to take the cost of Earthmoving Application by EPA before starting the construction phase of.

What does a Marshall authority do?

The Marshall Authority will open a bank account in its name at a Japanese bank and issue Authorization to Pay (A/P) to the bank. Based on the Banking Arrangement, it bears advising commissions of an Authorization to Pay (A/P) and payment commissions to the bank. Environmental assessment: The Environmental Protection Agency (hereinafter
