

SolarMax Energy Systems

Mexico energy storage container plant 3 44MWh

Overview

Will quartux deploy the largest energy storage system in Mexico?

An energy storage system deployed by Quartux. Image: Quartux. System integrator Quartux will soon deploy the largest battery system in the Mexican energy storage market, the company's managing director told Energy-Storage.news, discussing opportunities and challenges in the country.

How many power plants will Mexico install in 2022?

A plan concerning the installation and retirement of power plants, prepared as part of the National Electric System's development program, projected Mexico could install 4.5 GW of energy storage sites between 2022 and 2036.

What is Mexico energy storage?

Mexico Energy storage was first included as part of Mexico's long-term policies in the Transition Strategy to Promote the Use of Cleaner Technologies and Fuels published by SENER in 2016.

Who is launching a new energy storage model in Mexico?

That model has also been launched by other players in the Mexican energy storage market, most recently renewable energy company Fotowatio Renewable Ventures (FRV) together with US-based energy analytics and software company Energy Toolbase and local developer Ecopulse.

Will Mexico start energy storage RD&D projects?

The roadmap suggests developing regulations and promoting research, development and demonstration (RD&D) projects , but these proposals have not yet been adopted as a formal policy guideline. Nevertheless, Mexico is expected to start energy storage RD&D projects in the next years.

Will energy storage attract renewables investment in Mexico?

With Mexico's president-elect having announced an intent to attract renewables investment, energy storage was the subject of much discussion at the Intersolar Mexico trade show.
