

## Overview

---

Who are the leading companies in the micro inverter market?

Some key players operating in the market are Enphase, Darfon Electronics Corporation, Deye Inverter, Sparq Systems, Fimer Group, Solis Solar, Tata Power Solar, and others. The following are the leading companies in the micro inverter market. These companies collectively hold the largest market share and dictate industry trends.

What is the global micro inverter market size?

The global micro inverter market size was estimated at USD 4.67 billion in 2024 and is projected to reach USD 17.34 billion by 2030, at a CAGR of 24.58% from 2025 to 2030. The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency.

Which country is leading the solar microinverter market?

North America contributes in for the solar microinverter market, where USA is leading way for the market. The USA market has experienced significant growth driven by a rise in demand for renewable energy, government support, and heightened awareness of the ecological advantages of solar power.

Why is the micro inverter market growing?

The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency. North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum.

Where is the microinverter market segmented?

The global market is segmented into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa. Asia Pacific is estimated to have all the

dominant microinverter market share during the study period.

Is Germany a good market for solar microinverters?

Germany remains one of the leading markets for solar microinverters in Europe. Thanks to a robust renewable energy framework and solid governmental backing, the nation has steadily expanded its solar energy capabilities.
