

SolarMax Energy Systems

Micronesia solar panel photovoltaic panel manufacturer

Overview

How much does a solar project cost in Pohnpei?

After just 15 years, the entire project, capitalized at over \$20 million, will transfer, without cost, to the State of Pohnpei, providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.

What are photovoltaic modules made of?

We use high-efficiency photovoltaic modules built with a rugged anodized aluminum alloy frame. They are encased in ultra-high temp tempered glass capable of sustaining high wind loads (175 mph) and performing efficiently even in low light conditions and are backed by a 25-year warranty for minimum power output.

What kind of inverter does gosolar use?

GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP™. Founded in 2010 in Silicon Valley California, NEP™ engineers and produces competitively priced high-quality micro inverters. In fact, the NEP™ micro inverter is the only certified and commercially available micro inverter in Japan.
