

SolarMax Energy Systems

Monocrystalline silicon double-glass bifacial photovoltaic modules

Overview

The bifacial dual sided glass module (G2G) generates more electricity by converting direct, radiant and scattered solar energy on both the front and the back side of the module. The thinner tempered glass means less light trapping inside the glass increasing overall module efficiency.

Monocrystalline silicon double-glass bifacial photovoltaic modules

Evo6N N-Type TOPCon Bifacial Double Glass 685-710W

Adpoted SunEvo lastest S-TOPCo 2.0 technology, No polysilicon wrap around, Full electrical isolation, Zero leakage current; Much Safer for roof. Higher power output even under low-light ...
