

SolarMax Energy Systems

Montenegro Energy Storage Grid

Overview

EPCG, Montenegro's largest electricity provider, is investing in two four-hour BESS to strengthen grid resilience and balance supply and demand. Each system will have a power output of 30 MW and a storage capacity of 120 MWh, designed for operation at an output voltage of 35 kV.

Montenegro Energy Storage Grid

EPCG invests in two grid-scale battery storage systems in Montenegro

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing in two four ...

Home Energy Storage (Stackable system)

Product Introduction

- ✓ Scalable from 10 kWh to 50 kWh
- ✓ Self-Consumption Optimization
- ✓ Integrated with inverter to avoid the compatibility problem
- ✓ LFP battery, safest and long cycle life
- ✓ Stackable design, effortless installation
- ✓ Capable of High-Powered Emergency Backup and Off-Grid Function

Montenegro crane battery storage

Montenegro offers promising investment potentials in renewable energy integration and battery storage capacities to effectively balance new renewable energy capacity on the grid.
