Morocco communication base station inverter safety

Overview

What is a Q&A guide to electricity regulation in Morocco?

A Q&A guide to electricity regulation in Morocco. The Q&A gives a high-level overview of the domestic electricity market, including domestic electricity companies, electricity generation and renewable energy, transmission, distribution, supply and tax issues.

What is ANRT type approval in Morocco?

What is ANRT Type Approval in Morocco, and Why Does Your Product Need It?

In Morocco the Agence Nationale de Réglementation des Télécommunications (ANRT), a regulating authority ensures safety with ICT equipment used in Morocco along with providing quality assurance.

Which companies are launching 5G networks in Morocco?

Nokia, Huawei, Ericsson and ZTE. November 2024 update: The opening of the tenders related to the allocation of 5G licences is expected by Q1 2025 whereas the launch of the first 5G network activations in developed cities of Morocco is expected roughly twelve (12) months following the opening of tenders.

Which equipment category is excluded from ANRT type approval in Morocco?

The list of exception equipment category from obtaining ANRT Type Approval in Morocco are; CPE without RF cards: This means CPE gear such as a switch or server without embedded RF capabilities. Without this capability to transmit using RF, the regulatory burden on such devices is greatly reduced, and these exemptions are based upon.

How is energy efficiency regulated in Morocco?

However, energy efficiency is specifically regulated by Law 47-09 on energy efficiency. Devices and equipment commercialised in Morocco using electricity,

natural gas, gaseous or liquid oil products, coal and renewable energies must comply with minimum energy performance requirements.

Why is Morocco promoting foreign direct investment in telecommunications?

To establish itself as a leading hub in the field of digital technologies on the African continent, Morocco is encouraging foreign direct investment in the telecommunications sector, especially as it seeks to accelerate its whole-of-society digital transformation, promote new technologies, and develop telecommunications services.
