# Morocco factory manufactures battery station cabinets

## Overview

---

Will China build a battery cell factory in Morocco?

The Chinese battery cell manufacturer and Volkswagen partner Gotion High-Tech has signed an investment agreement with the Moroccan government for a battery cell factory in the country. The initial production capacity will be 20 GWh, but this figure could increase significantly at a later date.

Which companies are planning to build a battery plant in Morocco?

In May 2024, Hailiang and Shinzoom had announced plans to build battery component plants near the city of Tangier. BTR New Material Group and CNGR Advanced Material also intend to build battery material production facilities in Morocco.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Does CATL have a battery production base in Morocco?

CATL has already planned over 100 GWh of production capacity at its European factories. Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger.

Will Morocco build a Gigafactory for electric vehicles?

Gotion High-tech from China plans to build the first gigafactory for electric vehicles in Morocco. The project's total value is estimated at 1.2 billion euros. Initially, the factory will have 20 gigawatt-hours of annual capacity. However, Gotion plans to increase the capacity of the plant to up to 100 gigawatt-hours

at a later date.

How much does it cost to build a battery in Morocco?

The total cost could then reach six billion euros. Morocco's geographic proximity to Europe, free trade agreements with the EU and the US, and its existing automotive industry are attracting Chinese battery manufacturers. In May 2024, Hailiang and Shinzoom had announced plans to build battery component plants near the city of Tangier.
