

SolarMax Energy Systems

National energy storage container supplier

Overview

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is container energy storage?

Our container energy storage optimizes distribution, seamlessly integrates renewables, and eases grid strain. From factories to remote areas, we deliver consistent power, advancing sustainability. As dedicated partners, we redefine energy access, steering towards a brighter, greener future. Join us in shaping tomorrow's energy landscape.

Why should you choose a container energy storage system?

Safety is paramount in our container energy storage systems. Through advanced multilevel safety protocols, we guarantee the security of your energy investments, prioritizing user safety, system integrity, and peace of mind. Prepare for the unexpected with our container energy storage's black start capability.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);.

What are the benefits of energy storage system (ESS) containers?

Please download Energy Storage System (ESS) Containers brochure for reference. 1. Lower LCOS & Higher Energy Density Maximise ROI: industry-leading Levelised Cost of Storage thanks to high-capacity LFP cells. Compact

footprint: hand-in-hand / back-to-back layout delivers more kWh per square metre.

What is a container enclosure body with a battery rack?

1. Container Enclosure Body with Battery Rack This is our foundation-level BESS solution, designed with flexibility in mind. It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other components.

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

Product Introduction

- ✓ Scalable from 10kWh to 50kWh
- ✓ Self-Consumption Optimization
- ✓ Integrated with inverter to avoid the compatibility problem
- ✓ LFP battery, safest and long cycle life
- ✓ Stackable design, effortless installation
- ✓ Capable of High-Powered Emergency Backup and Off-Grid Function
