

SolarMax Energy Systems

Nepal Industrial and Commercial Energy Storage Equipment Factory

◆ PRODUCT INFORMATION ◆

BATTERY CAPACITY
50kWh~500kWh

DC VOLTAGE RANGE
400V~1000V

DEGREE OF PROTECTION
IP54

OPERATING TEMPERATURE RANGE
-10~50°C

Overview

Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What are commercial and industrial energy storage solutions?

Our commercial and industrial energy storage solutions offer from 30kW to 30+MW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.

What is a C&I energy storage system?

A C&I (Commercial and Industrial) energy storage system is an energy storage solution designed for commercial and industrial applications, such as factories, office buildings, data centers, schools, and shopping centers.

How much does a C&I battery-based energy storage system cost?

Considering these factors, a C&I battery-based energy storage system can cost anywhere from tens of thousands to hundreds of thousands of dollars or more, including installation. The best choice will depend on the specific energy requirements, as well as the affordable budget and return on investment expectations.
