

## SolarMax Energy Systems

# New European Union photovoltaic panel manufacturer

### ESS

AI-W5.1-B-ESS

**All-in-one**

≥6000 Cycle Life

## Overview

---

How does the EU support the European solar PV manufacturing sector?

Over the last years, the EU has taken initiatives to strengthen its support to the European solar PV manufacturing sector, which includes several globally competitive companies in several steps of the value chain.

Where do solar panels come from in Europe?

However, the bulk of the demand for solar modules in Europe is covered by imports. Currently, 97% of the solar panels imported into the EU come from China. The charter sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

What does the EU Solar Alliance do?

The alliance aims to accelerate solar PV deployment in the EU by scaling-up to 30 GW of annual solar PV manufacturing capacity in Europe by 2025, facilitating investment, de-risking sector acceleration, and supporting Europe's decarbonisation targets.

What is the EU photovoltaic charter?

Signed today in the margins of the informal Energy Council meeting by the Commission – represented by EU Commissioner for Energy Kadri Simson - energy ministers from 23 EU countries and industry representatives, the charter sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

Which country has the most solar panels in Europe?

Among them, Germany is the largest solar market in Europe, with an installed capacity of 65.1 GW, followed by Spain (33.9 GW), Italy (26.4 GW) and France (25.4 GW). This article introduces ten European solar panel manufacturers for your reference.

What does the European PV charter entail?

The signatories of the Charter commit to supporting the competitiveness of the European PV manufacturing industry and promoting the creation of a market for high-quality products meeting high sustainability and resilience criteria, in full respect of the EU's climate and energy objectives.
