

SolarMax Energy Systems

New energy battery cabinet charging equipment

Overview

What is a lithium-ion battery charging cabinet?

The Justrite Lithium-Ion Battery Charging Cabinet is the ultimate solution for safely charging and storing your lithium-ion batteries. Each charging station locker has multiple layers of advanced shielding to help reduce the risk of battery fires and thermal runaway.

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

How many receptacles does a lithium-ion battery cabinet have?

This patent-pending design for our lithium-ion battery cabinet offers the highest level of protection. With eight receptacles, it allows for simultaneous charging of multiple batteries up to a maximum of 4kWh, providing a reliable and efficient solution.

How does a charging station locker work?

Each charging station locker has multiple layers of advanced shielding to help reduce the risk of battery fires and thermal runaway. A special label on the cabinet changes colors when temperatures reach 120° to give a clear warning of potential danger. This battery storage unit has a max capacity of 4kWh.

What is a Justrite battery storage cabinet?

Every Justrite battery storage cabinet is made from strong 18-gauge steel. It has double-walled sides, top, and bottom with a 1.5-inch air gap between the walls. The manual-close doors have baffled vents and a unique flame arrester pattern. They are supported by continuous piano hinges for a secure and reliable closure.

How many kWh can a battery storage unit hold?

This battery storage unit has a max capacity of 4kWh. It includes an 8-receptacle power strip to allow you to charge multiple batteries at once. The lightweight, benchtop design makes it easy to move the cabinet wherever you need it. Lockable doors keep your lithium-ion batteries securely stored and safe from theft.
