

## SolarMax Energy Systems

# New photovoltaic energy storage battery cabinet

## Overview

---

Which battery is suitable for photovoltaic storage?

Lithium batteries for photovoltaic storage. Modular system with 5 kWh stackable battery packs with 100% discharge capacity. Huawei presents the lithium battery (Lithium Iron Phosphate - LFP) Huawei LUNA2000-5 / 10 / 15. This high voltage battery is compatible with a wide range of inverters on the market.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

Do energy storage cabinets need to be painted?

This ensures that energy storage cabinets maintain excellent appearance and performance, as well as resisting corrosion and UV radiation. We place particular emphasis on comprehensive pre-paint processes, including degreasing, cleaning and neutralisation, to ensure excellent paint adhesion and quality.
